

Control Systems Inc.

THM-0200

PROGRAMMABLE THERMOSTAT

Beneficial features exclusive to the HBX Thermostat includes fully programmable setback options, with 2 external sensor inputs and multiple heating & cooling modes. The THM-0200 can handle a variety of different applications such as:

Internal Room, External Floor and/or Outdoor Sensing Capabilities.

Features

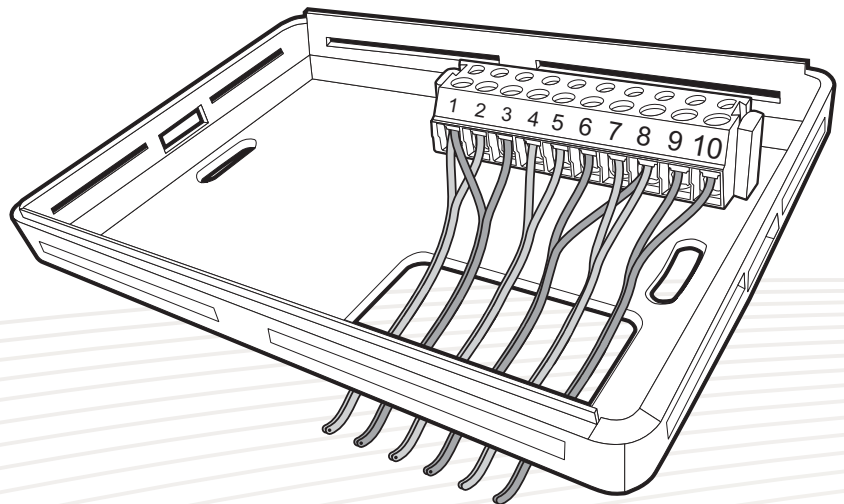

- 5 Weekday & 2 Weekend programmable capabilities with 4 setbacks per day.
- 2H/1C, 1H/2C, H/H, H/C & C/C with fan.
- Includes extra thermostat with 10' lead wire.
- Senses floor & room temperature.
- Backlit visual graphic display.
- 2 External sensor inputs.

* SINGLE STAGE BOILER CONTROL *

Incorporating a single boiler control with a fully programmable reset function on the THM-0200 platform is just another example of the value-added extras incorporated into the HBX design process.
