

Wilo COR

Pressure Boosting Systems

Product Brochure

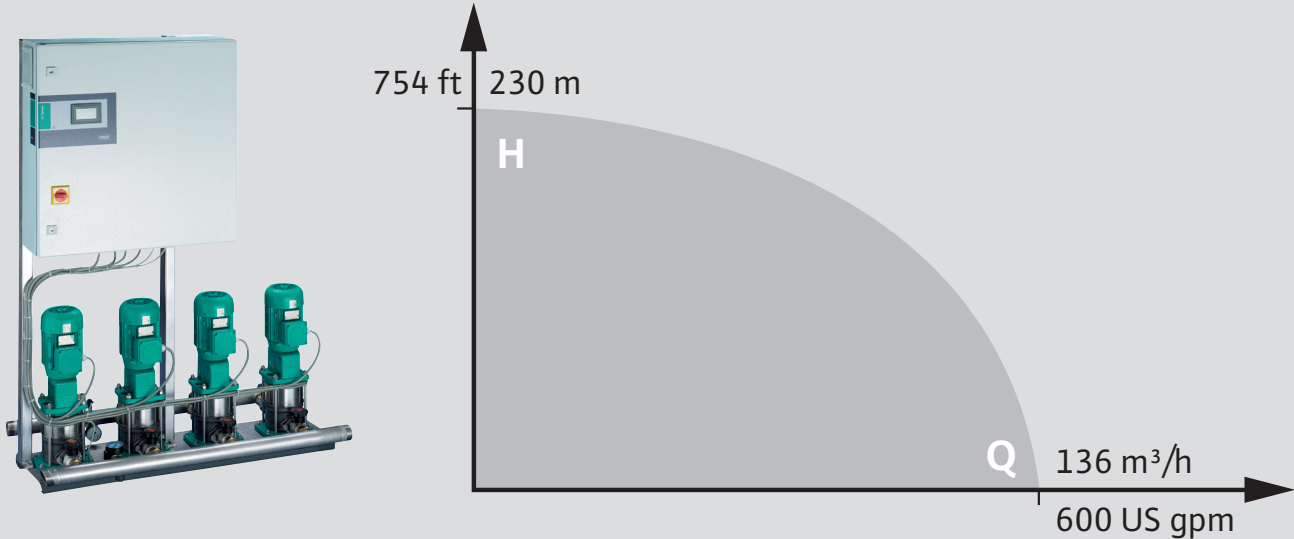

Wilo COR

Pressure Boosting Systems

For use in water supply applications requiring constant pressure, such as:

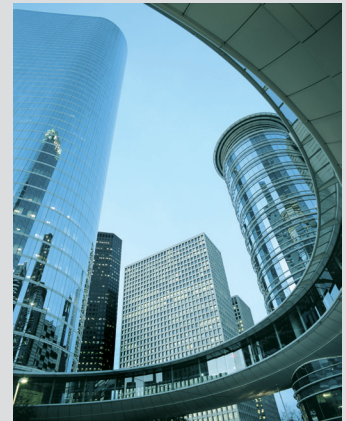

» Residential, Commercial & Industrial Buildings » Hotels » Hospitals » Department Stores » Sports Arenas » Washing/Irrigation

Wilo COR

2, 3, and 4-Pump Systems!

- » Compact design – small footprint and easy to install/retrofit
- » Efficient – VFD controlled base load pump for energy savings and cost effectiveness
- » Low maintenance costs – utilizing standard, constant speed motors
- » LCD display – multi language, user friendly
- » Security enabled control – three programming levels
- » Digital remote control – with BMS systems or wireless control (optional)
- » System monitoring – records hours of operation, faults, pressure fluctuations
- » Two programmable set points – allows for night pressure reduction
- » Balanced run time – load is distributed across all pumps
- » Fixed or alternating base load pump – user selectable
- » Overloads – high and low system pressure shutdown
- » Inlet pressure management – protects system on low inlet pressures
- » Factory pre-programmed system to individual specifications
- » EISA-compliant, TEFC motors on all systems
