

# THE MOST EFFICIENT COMMERCIAL SOLAR WATER HEATING SYSTEM.

## COMMERCIAL HEATING

**1,000's**  
OF INSTALLS  
WORLD WIDE

- 40 year life span
- 25 year tank warranty
- Conditional HX coil warranty
- Non-corrosive
- Non-pressurized
- Can resist all weather
- Hot water, hydronic heating
- Highly efficient
- Legionella killing system
- Minimal lime scale
- Minimum energy use
- Can use any heat source
- Excellent pre-heat storage
- Heat recovery or solar
- Modular system

## SYSTEM DESIGN

“Pre-engineered and pre-fabricated energy efficient solution...”

...for commercial hot water heating, solar and pool heating applications. Multiple configurations (from 1 to 16 tanks) to size the system properly for the job. Completely portable and fits through most doorways ready to assemble.

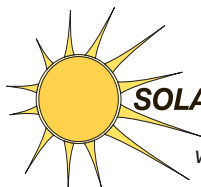

- Unpressurized and direct drain-back solar system
- Solar energy for hot water and heating
- High performing flat solar panels
- Highly effective stratified storage tank
- Without anti-freeze agents
- Optimum water hygiene
