**PLUMBING WITH A PLUS**  
EVERLOC+<sup>®</sup> compression-sleeve fitting system

---

---

## EVERLOC+

The next-generation fitting system.

---

### **You promise a reliable plumbing system**

And when your customer is counting on you, you're counting on the system you install to deliver on that promise with secure connections from start to finish.

### **We back you up on it**

Uniquely designed for quick, consistent, secure connections in any weather, EVERLOC+ eliminates many of the variables that can complicate installation. An added bonus: Immediate pressure testing.

### **A complete system solution from REHAU, the brand plumbers have trusted for decades**

The EVERLOC+ system includes our polymer and lead-free brass fittings, PEXa sleeves and a battery-powered tool. It is specifically designed for use with REHAU RAUPEX® pipe, known and trusted by plumbers around the world for more than 40 years.

## EVERLOC+

Security. Control. Speed.

With secure connections from start to finish, EVERLOC+ simplifies installation and allows for immediate pressure testing. When you're done, you're done.

### 4x more secure\*

The patent-pending design of EVERLOC+ includes unique features that ensure secure, worry-free plumbing installations, every time.

Compression-sleeve  
technique

Multiple  
sealing edges

Textured  
sleeve

### 360° connection control

EVERLOC+ uses one consistent technique that your team will master after just a few connections. Expand. Compress. Done. You're in control, start to finish. No need for workarounds.

Immediately secure  
connection

Easy  
visual verification

Consistent and active  
technique

### Up to 3x faster\*

No matter the circumstances, two expansions and one compression are all that's ever needed with EVERLOC+. That goes for all sizes and any temperature range. And unlike other common plumbing systems, there's no waiting for pressure testing.

Always  
two expansions

Immediate pressure  
testing

All-weather  
fitting

\* vs F1960 fitting technique

## AN UNBEATABLE TEAM

Backed by REHAU quality and support.

### Quality

EVERLOC+ compression-sleeve fittings and PEXa plumbing pipe are manufactured exclusively by REHAU and backed by a 25-year limited warranty. See details at [na.rehau.com/warranties](http://na.rehau.com/warranties).

### REHAU EDGE<sup>SM</sup>

Our contractor development program encourages all aspects of your business growth through training, product and tool incentives, design services, brand merchandise and local, regional and national events. REHAU EDGE is the ultimate connection that moves the entire team in a direction that supports your business development. Find out more at [na.rehau.com/edge](http://na.rehau.com/edge).

### REHAU Academy

Our training programs equip you with the skills to professionally install our systems as well as the knowledge to easily explain their advantages to your customers, ultimately enabling you to strengthen your business through sales and REHAU system expertise. Search for seminars at [na.rehau.com/academy](http://na.rehau.com/academy).

### PEXa pipe

A flexible, durable, cost-effective alternative to copper and other polymers, our RAUPEX UV shield PEXa pipe offers fast, easy installation. RAUPEX is also corrosion resistant, providing years of quiet, consistent flow and water pressure in plumbing applications.

### Compression-sleeve fitting

Our unique, patent-pending design features four sealing edges and the extreme grip of a textured PEXa sleeve. You'll get an immediate seal every single time, and one that's strong and reliable for the long haul. The "push and hope" technique used with other fitting systems simply can't compare to EVERLOC+.

### Power tool

One battery-powered tool for expansion and compression features color-coded expansion heads and compression jaws (size specific) as well as quick change expander heads. Jaws can be positioned in various orientations to accommodate many installation scenarios.

**EVERLOC+**
